App		Features	Premier Essentials	Premier Eddition	Global Edition
General	Features	Licensing type	Single Server / Multi Client		Central & Multi-Server / Multi Client
		Installation versions	32Bit & 64Bit		
		Core license offerings	9 - 16	24 - 48 - 72 - 96	50 - 100
		Server Connections: Number of connected Clients Supported	Unlimited		
		Version updates - Major releases are quarterly and maintenance releases typicaly one to two months after a major release	Free during active warranty subscription		
		Warranty: Core License - Offers access to major and maintenance releases during the active subscription coverage. *(Life time technical support & resources)*	2 Year core license with options to renew		
		Renewal / Extention: Core License	1, 2, 3, 4, 5, 6, 7, 8 Year renewal options		
		Channel upgrade options - Single channel add-on with an MOQ (minimum order quantity) of 6 channels in Premier and Global editions	N/A	Channel additions	
		Warranty: Channel Add-ons - Automatically covered under the balance of the 2 year core license warranty *(Core license renewal / extension coverage not included)*	N/A	Covered under remaing 2-yr Core License warranty	
		Renewal /Extention: Channel Add-ons - Renewal /Extension license required if past the core license 2-yr coverage *(Core License renewal / extension not included)*	N/A	1, 2, 3, 4, 5, 6, 7, 8 Year renewal options	

App		Features	Essentials	Premier	Global
CORTROL Client	Features	Archive Backup Wizard (Includes support for Visual Groups)	Available	Available	Available
		Advanced Window Settings: Video Wall Composite Screen (Tiles)			
		Automatic stream selection for archive playback			
		User Buttons: List of User Buttons (Support of Visual Folders, Server Association, Merged Resources)			
		Command Mapping: Archive, Device, Layout, Playback, Window			
		Channels: List of Channels (Support of Visual Folders, Server Association, Merged Resources)			
		Channel Status: Green/White - Online, Red/Grey - Offline			
		Client Full Screen / Minimize / Restore / Exit			
		Client Tree: Collapse / Minimize			
		Client Configuration Import/Export			
		Connections: Multi-Server connection grouping			
		GPU hardware decoding for H.264 & H.265 codec, and performance test utility			
		HTTP based API commands			
		Layouts: List of Layouts from Built-in (60), Custom, Sequence, Shared (Requires CORTROL Global)			
		Layout Synchronization Setting - Enable/Disable Live/Playback Layout synchronization			
		Login - Two factor authentication			
		Multi-Cast Support			
		Maps: List of Maps (Support of Visual Folders, Server Association, Merged Resources)			
		Multi-Monitor Support: No limit to Number of Monitors (Hardware Limitation Only)			
		Multi-Monitor Instant Playback support for 'Go to Playback' button send to Playback			
		Notification Panel: Font size adjustment setting, Show images (Thumbnail) for external service results, Dynamic position and scaling			
		ONVIF metadata support: Bounding box & classification overlay in Live and Playback			
		Plugin integration: i-PRO Active Guard OSS, Watch lists server evets integration - ***New in 1.26.0***			
		Show child nodes when searching in Client application tree view			
		Search (Includes associated Child Nodes): Client Search of Layouts, Channels, Maps, Buttons			
		Snapshot Export: File Name Template / Subtitles / To PDF Report			
		Status: Online / Offline Server Associated Layouts, Channels, Maps, Buttons			
		Theme: Use Color to Highlight Important Functions/Features			
		Time Presentation: Toggle Between Local / UTC / Server Time (Scroll Server List)			
		User Guide: Client User Guide			
	Live	Action/Status Icons: Recording Status, Recording Type, Codec, Resolution, FPS, Bitrate	Available	Available	Available
		Aspect Ratio Toggle: Toggle between Auto / Stretch / Original			
		Bookmark Add: Date/Time, Title, Description, Severity level by color			
		DPTZ and Dewarping: Region (PiP + Zoom In/Out) & PTZ (Virtual Pan/Tilt, 180° Pano, 360° View)			
		Fisheye, hardware accelerated dewarping			
		Instant playback: Go to Date/Time, Audio, Motion status, Bookmark, Snapshot, Video Export			
		Layout Save Properties: Title, Presets, Shared (Shared layouts requires Global)			
		Layout Pop-up Quick Select: multi-item selection, (cameras/maps), live stream layout popup			
		Lock Viewport: Prevents Pop-up Superseding Existing Channel			
		Multi-Display: Startup Layout, Sequence, Channel & Map or Layout Pop-ups			
		Map Support: eMaps, Geo-Maps (Linked Mobile GPS Meta Data), Visual Indicators, Action Links, Visual Camera Marker Live Preview pop-up			
		Microphone: Transmit Audio to Device (Device Support/Configuration Required)			
		Motion Grid: On/Off Detection Status Overlay			
		Notification Pane: Display E&A Notifications of Events, and or Alerts			
		PTZ: Presets, Tours, Iris & Focus, Joystick Support, HUD/Classic UI			
		Pop-Up Support: Pop-up Windows, Layouts, Notifications, Dialog Boxes			
		Substream Toggle: Toggle between Substream, Primary Stream, and Auto			
		Speaker: Receive Audio from Device (Device Support/Configuration Required)			
		Undo/Redo: Historical navigation of layout changes within liveview			
		Viewport button to send channel to Sequence Explorer			
		Viewport button to send channel to Smart Search			
		View non-interactive websites			
		Viewport Title: Channel Title, Channel Swap by Drag & Drop, User Button(s)			
		Visual Shortcuts: Visual support for fast channel navigation			
	Playback	Archive Search Navigation:	Available	Available	Available
		Archive Search Bookmarks: Search Record Limit 1,000 Bookmarks			
		Archive Search Video Analytics Meta Data: Object, Counter, Event, Class			
		Archive Search Calendar (Month|Day|Time): All Visible Channels, or Per channel			
		Archive Search: Data Protection / Deletion (User Authentication Required)			
		Visual Shortcuts: Visual support for fast channel navigation			
		Copy Exported Video to user defined media, option of Portable player			
		Export: Case management video - multiple channels with custom date and time ranges			
		Export List Entry Events to a CSV File (Bookmarks, VCA)			
		Export Video: With/Without Audio - Selected Channel, All Channels Combined, All Channels Separate			
		Export Video: VP8 and JPEG compression includes dewarped images and VA metadata overlay			
		Export Snapshot: Sub-Titles, Selected Channel, Multi-Channel (All Visible Channels)			
		Geo-Maps Playback with Mobile GPS meta data support			
		Motion Blur Upon Export (IDentity Protection)			
		Playback speed controls: regular, slow and fast (Up to 8x speed)			
		Playback Channel Statistics: Recording Type, Codec, Resolution			
		Search bookmarks across all channels			
		Timeline and bookmarks thumbnail preview			
		Timeline Presentation Mode: Summary, Selected Channel, Separate Timeline per channel			
		Undo/Redo: Historical navigation of layout changes within playback view			
	Sequence	Export Snapshot per Single Channel Selection	Available	Available	Available
		Export Video Clip: Entire Start to End Date/Time Selection, One or More Channels			
		Make New Sequence (Select Two or More Channels)			
		Select Start & End Date/Time			
		Send to Playback: Entire Start to End Date/Time Selection, One or More Channels			
		Sequence Layout 3x4 ~ 5x5			
		Split Prior / Next Footage (Based on Selected Measure of Time)			
		Undo/Redo: Historical navigation of layout changes within sequence view			
	Smart Search	Send to Playback	Available	Available	Available
		Add Bookmark			
		Export Video Clip			
		Live Preview			
		Search by Date/Time			
		Set Region of Interest with Additive Function Supported			
		Multi Layout support 3x3 ~ 6x6			
		Prior / Next Result Move to Function			
		Export List Entry Events to a CSV File			
	Alerts	Logon/Logout Alerts	Available	Available	Available
		Camera Events			
		Operational errors			
		Stream Errors			
		Server & Device - Connectivity Errors			
		System Level Alerts			
	Library	Open Exported Snapshot/Video Based on Select Entry	Available	Available	Available
		Show in Windows Explorer (Open Folder Containing Exported Media)			
		Copy to… (Copy Exported Media to Selectable Device, Local Folder, Thumb Drive, External Hard Drive			
		Delete Selected Exported Snapshot / Video Entry from Library

	Virtual Machine Environment support	Available	Available	Available

App group: CORTROL Client

Feature list per editions   **(v1.26.0 Dec. 07 2023)**

CORTROL Server Management Console Configuration

App	Features	Premier Essentials	Premier Eddition	Global Edition
Server / Networks	Audit Policy: Access Control events - Lock/Unlock/Temp Unlock actions performed by a user. - Server/User Events, Uncategorized - Max Records 10K, Max Days Unlimited	-		
	Authentication: Two factore via Email & SMS, CIAM: OAuth 2.0 - Apple, Custom, Google, Microsoft, Okta			
	Auto Discover: Same Network Recording Server Discovery			
	Bookmark Policy: Max Records 500K, Max Days - 5 Years, Pre-configurable severity levels with colors indicator			
	Browser Support: Chrome, and Firefox			
	Complex Password Security Policy Supported, with account lockout on N attempts			
	Encryption: Server Configuration Database, Audit Logs, & Other Software Data - Server/Client Communications, Storage, Archival Recording 128-bit and 256-bit AES encryption			
	External Audit: External database support for PostgreSQL, MySQL, Microsoft SQL Server			
	Failover Node Role - *Used by CORTROL Recording Server*	-		
	HTTP/HTTPS Support: Mobile App, Web GUI, and API Applications	Available	Available	Available
	Membership / Permissions Assignment Support			
	Mirroring Licensing Server (Global Support Only)	-		
	NAS Support: Network & Remote Storage			
	NTP Server support. Ability to synchronize Windows time settings			
	Password Protection: Proprietary Archive			
	RTSP/SMTP/NTP/RTP	Available	Available	
	Security Policy: Disconnect user when disabled, PW change, expired, OAuth token reset, User ID watermark over live video and playback ***New in 1.26.0***			
	Storage Configuration Management: Directories, Duration Quota, Retention, Fallback			
	Server Side Multi-Cast Support			
	VCA Analytics License Management (Assigned Licenses)			
	Web & Moibile Client Connections Supported		Unlimited	
	Watchdog: Operations, Performance, and Maintenance	Available	Available	Available
External Services	External Module FR (Face Recognition): ZNS-FR-x, Vero FR, ZNS-CVA-FR-x	Available	Available	Available
	External Module LPR (License Plate Recognition): ZNS-LPR-x, ZNS-CVA-LPR-x			
	External Module UICC (Container, UIC & Wagon): ZNS-CVA-UICC-x			
	GANZ AI Box: Event notification upon AI event action			
	GANZ Cloud AI service and storage			
	External Services support now on Recording Server			
Failover Clusters	Auto Recovery: Failover Deactivation after Corresponding Recording Server is Online	-		Available
	Central Server Connection Timeout			
	Failover Cluster 1:1, 1:Many support			
	Failover Timeout			
	Recovery Timeout			
	VCA functionality on failover server			
Users	Account: Activation / Expiration per a specified date and time	Available	Available	Available
	Active Directory & LDAP: Import Users, Users Groups, Foreign Security Principals			
	Administration Profile Permissions Support			
	Membership / Resources Assignment Support			
	Permissions: Per Resource Permissions			
	Per Organization / Resource / Component User Permissions	-		
	PTZ Prioritization Level			
	Recent Archive Interval Permissions Support	Available	Available	
	Schedule based user and user group resource access control - ***New in 1.26.0***			
	User Grouping Assignment			
Devices	Auto Discovery Devices	Available	Available	Available
	Bukl Edit (Devices): Server, Port, User, Password			
	Device Grouping Assignment			
	CrossLink Basic - Per channel chromium embedded framework (CEF) mini browser for an interactive HTML5 based URL w/H.264 support			
	CrossLink Advanced - Remote Desktop via VNC			
	Device Duplication Creation			
	Device Support 5,000+ with Manufacture Support 140+			
	External Device Support: Unlimited (Tablets, Mobile Phones - Dynamically Asigned to Available Channels)			
	Fast Navigation: Device Related Items Navigation to Associated Channel(s)			
	Generic Device Drivers: ONVIF (Profile S), RTSP, PSIA, HTTP, WASAPI			
	GSM generic modem: Support of SMS nofitication sending and receiving			
	JPEG / Video File as a Device Support			
	Smart Device Deletion (Inclusion of Active Channel & Rules)			
	Single/Multi Device Creation			
	View Associated Device Channels			
	Video Stream Resolution: Up to 8K Support			
	Video capture board support			
Channels	Analogue PTZ protocols (via RS-232,422,485 ports)	Available	Available	Available
	Archive Channel Replication: Archive Duplication to a 2nd/3rd Recording Device(s)	-		
	Audio Channel: Sharable Audio Channel Selection, with support for device API/ONVIF, One-Way / Two-Way audio driver specific			
	Bulk Edit (Channel): Orginization, Recording Configuration, Storage Assignment			
	Edge Recording: Device specific API, and or ONVIF Profile G Supported			
	Fast Navigation: Channel Related Items Navigation to Associated Device(s)			
	Fisheye Dewarp engine for 6MP and larger resolutions			
	Group Channel, Membership, Permissions assignment supported			
	Image properties; Focus / Brighten / Saturation / Contrast / Sharpness / White balance / Backlight / Wide dynamic / Exposure / Infrared Cutoff			
	I/O Support: Device API/ONVIF Driver Specific Input / Output Supported			
	Multi-Stream Support: Primary, Secondary, (RTSP: Hight Stream / Low Stream)			
	Motion Detector: Device or Server (HP/AP) side support			
	Multi-Cast Camera Side Support (Dependent upon Device Integration)			
	Per Channel Passive mode - Pause communications and video streaming until requested			
	Per Channel Video Overlay Configuraiton			
	Recording Configuraiton Assignment: Main Stream, Substream, Bulk & Single Channel Assignment			
	Storage Asignment: Per Channel Stream Recording Storage Assignment			
	Show Video: Per Channel Display of Video Stream (Multi Channel Selection not Supported)			
	Supplementary Streams: Audio, Motion, VCA, External Data Stream - Alternatively record with substream over mainstream			
	Video Analytics Configuration per Assigned Channel (License Assignment & Configuration)			
	Video Analytics: CNNE Zones / Settings object time for presence, absence, and intersection by object threshold			
	Video Analytics: CNNE Zones Rules - enter/exit, appear/disappear, Lines/Tripwires - A/B, B/A, any direction			
	Video Analytics: CNNE dedicated database for analytics results history (External recognition results)			
	Video Analytics Engine: Advanced motion & object detection w/Classification			
	Video Analytics Detector: Personal Protective Equipment Detector, 1024x600, 512x512, 320x320, 300x300			
	Video Overlay: Visual shortcuts – Link functionality, Polygonal shaping, advanced options			
Recording	Recording Schedule: Graphical & List Configuration	Available	Available	Available
	Recording Profile: Continuous - (Video & Frame Rate / Audio / Motion / Data / VCA)			
	Recording Profile: Motion - (Video & Frame Rate / Audio / Post Recording / Motion Alert)			
	Recording Configuration: Pre, Quota (Amount / Duration) / Custom Days / User Calendars			
Maps	Map image: PNG, JPG, TIF, BMP, and Static Gif	Available	Available	Available
	Map image: Grid enable/disable and Lock grid enable/disable			
	Map icon: Channel, Icon (type, color, size), Icon outline (color), Title (color, size), Title outline (color), Radius, Sector, Rotate, Coordinates, Track			
	Map visual elements: Clone function to copy and paste visual elements (markers) - ***New in 1.26.0***			
	Geo-Map: OpenStreetMap based Geo-Maps, with selected longiture, latitude location based lock option			
	Map Grouping: Map / Geo-Map			
	Linking - Selectable iconification, icon size, icon color, icon title color, icon title size			
	Linking - Camera: Selectable icon & title: Color & Size, Rotation, Angle, Radius, GPS, Status			
	Linking - Map: Selectable icon & title; Color & Size			
	Linking - User Button: Selectable icon & title; Color & Size			
	Linking - Layout: Selectable icon & title; Color & Size			
	Linking - Doors: Access Control based readers / Door			
	Linking - Indicator (Status): Indicator of status function associated			
	Linking - CrossLink Basic: Chromium embedded framework (CEF) based interactive HTML channel - File download (Video, JPD, PDF, CSV) - Dedicate Tab option ***New in 1.26.0***			
	Linking - Data channel: Channel specific visualization of textual date from a linked Data source - Data ID, selectable channel recording destination			

App		Features	Essentials	Premier	Global
CORTROL Server Management Console	Layout Templates	Custom: Layout Support	Available	Available	Available
		Channel Grid Support: 1x1 ~ 20x5 (Up to 100 Channels)			
		Merge / Unmerge of Selected Channel(s)			
	Layouts	Layout Group: Group Selected Layouts	Available	Available	Available

	Visual Groups	Membership / Permissions Assignment Support	Available	Available	Available
		Visual Groups: Visual Representation of Grouped Objects			
		Multi-Level Visual Groups: Nested Visual Representation of Grouped Objects			
	Webpages	Crosslink Basic - Channel based webpage navigation (Requires license Crosslink Basic license per channel)	Available	available Requires license	Available Requires license
		Web address and URL supported			
		Certificate error tolerance			
		User access permissions support			
	Live Podcasts	Channel Video Stream; Primary or Substream	Unlimited		
		Channel Audio Stream Supported			
		Real-Time Messaging Protocol Support: YouTube, Wowza, Generic RTMP			
		Unlimited RTMP Channel Support			
	Data Sources	Data Source: Profile - Encoding, Mappings, Map Variable Supported	Available	Available	Available
		Data Source Type: TCP - Client / Server: Host - Port, UDP - Port, ComPort - Com Port / Buad Rate / Data Bits / Stop Bits / Parity			
		Time Series Database - Days, Intervals, Tables			
	Data Channels	Data channel: Provides a visualization of textual date from a linked Data source - Data ID, selectable channel recording destination	Available	Available	Available
		New Data channel: Details / Members / Membership / Permissions			
		New Data channel group: Details / Members / Membership / Permissions			
	Mail Servers	Aggregation Support: Count / Time			
		Server Addres: Host URL, IP Address			
		Security Mode: None, STRTTLS, SSL/TLS			
		Test function: Send test email notification page to an email recipient			
		Unlimted Email Servers Support			
	GSM Modems	AT command set supported	Available	Available	Available
		Generic GSM modem support			
		SMS Mode: Text, PDU			
		SMS Encoding: ASCII, UCS2			
	MQTT	MQTT protocol version: 3.1.1, 5	Available	Available	Available
		SSL/TLS version: None, 1.1, 1.2, 1.3			
		MQTT Certificate supported			
		MQTT last will and testament support			
	Reports	Count Based Reports: External Analytics Meta Data, E&A Counters - Reset, Increment, Decrement	Available	Available	Available
		Report Email Auto Send			
		Report Aggregation: Minute, Hour, Day, Week, Month			
		Report Interval: Current Day, Previous Day, Previous Week, Previous Month			
		Report Chart: Bar, Line, Pie			
		Report Filter: Week Days, Time (Minutes, Hours)			
	Access Control	Access Control: Door, and Door Permissions (Two-way integration)	Available	Available	Available
		Continental Access Control (One-way integration, Continental pulls in CORTROL video channels)			
		FEENICS "Keep" - Integration of Door controls, Events, People (Two-way integration)			
		Gallagher - Integration of Door controls, Events, People (Two-way integration)			
		GSF Corporation "Visual Access Systems" - Integration of Door controls, Events, People (Two-way integration)			
		Inner Range Integriti "Access Control" *** New in 1.26.0 ***			
		Keri Systems "Doors.NET" - Integration of Door controls, Events, People (Two-way integration)			
		NEDAP AEOS - Integration of Door controls, Events, People (Two-way integration) - 2023.x supported			
		Paxton - Integration of Door controls, Events, People (Two-way integration)			
		Satel Integra ETHM-1 Access Control Device: Integration is aimed for Alarm Panel ARM/DISARM events and actions			
		Roger RACS 5 - Integration of Door controls, Events, People (Two-way integration)			
	Events	Access Control System Events	Available	Available	Available
		Auxiliary Device (Non-video) Events			
		Device: BLK247 VCA event "Human" (Requires external AI module)			
		Device: BLK247 VCA event "Non-Human" (Requires external AI module)
